

Health and Safety Policy Statement

Aspect Construction ensures that all employees & sub-contractors as far as is reasonably practicable, are provided with a safe place of work and that all the provisions of health, safety, welfare, fire and environmental legislation are met. All necessary steps are taken to ensure the health and safety of other persons, including the general public.

Aspect Construction is committed to identifying, assessing and controlling HSQE risks arising from our activities, products and services within the scope of our Safety Management System that we control and influence.

Aspect Construction is committed to continual improvement of our health and safety performance and compliance with BS OHSAS 18001:2007 Safety Standard, legislation and other requirements.

Aspect Construction's Integrated Management System provides for:

1. Resources and funding to meet health and safety commitments and obligations
2. Setting and monitoring specific safety objectives for managers in accordance with legislation and our client's requirements
3. Identification of hazards, the formal assessment of risks associated and the implementation of suitable control measures
4. A training and competence management system
5. A safe means of handling, transporting articles and substances
6. Involvement of employees & sub-contractors through participation and encouraging suggestions regarding HSQE matters
7. A work safe procedure, which ensures that work is only undertaken if it can be carried out safely and provide support to all employees & sub-contractors who raise concerns regarding the safety of their work
8. The ultimate aim of the elimination of accidents, specifically personal injury and property damage
9. Effective systems for the management of sub-contractors
10. Welfare and first aid facilities
11. Fire precautions, together with equipment and training
12. A proactive health and safety culture, including behavioural based safety and incentivised reporting of incidents.
13. Management of occupational health surveillance.

This statement is briefed and acknowledged by all employees & sub-contractors to ensure their understanding and that they have a personal responsibility for their own health and safety and for that of others that could be affected by their actions.

This statement will be reviewed annually, (or as and when required) by the Directors.

For and behalf of the Board of Directors
Wesley Allmark
August 2014

Aspect Construction operate a Health and Safety Management System that is certified as compliant with BS OHSAS 18001:2007.
